Address: New Defence Colony, Jalandhar, Punjab, India

CAREER OBJECTIVE

To continue my career in web development, seeking an opportunity to work with modern web technologies, including front-end frameworks and backend services. Passionate about applying my problem-solving skills in building scalable web applications, enhancing my technical expertise, and developing user-centric web solutions that drive innovation.

TRAINING AND INTERNSHIP

TRAINEE, O7 SERVICES, PUNJAB   **June 2024 – Aug 2024**

- ❖ Learned the fundamentals of React.js, including JSX, components, props, and state management.
- ❖ Built small projects and practice applications to strengthen understanding of React concepts.
- ❖ Explored React Hooks such as useState and useEffect for functional component development.

EDUCATIONAL QUALIFICATIONS

BACHELOR OF COMPUTER APPLICATIONS   **July 2022- June 2025**

GNA University, Phagwara, Punjab.

SENIOR SECONDARY EXAMINATION, CBSE   **April 2021 - March 2022**

St. Soldier Divine Public School, Jalandhar.

TECHNICAL SKILLS

LANGUAGES

HTML5, CSS3, JavaScript (ES6), React.js

Programming Languages

C, C++.

Version Control

Git and GitHub.

Other Skills

Problem-Solving, Logic Building, Basic Debugging

PROJECTS

SecureDoc – Student Document Management System | HTML, CSS, JavaScript, Firebase

- ❖ Designed and built a responsive web application for universities to securely manage student documents.
- ❖ Developed the frontend using HTML5/CSS3 and JavaScript.
- ❖ Used Firebase for user authentication and cloud document storage.

Tic Tac Toe Game | C Language | Console Application

- ❖ Developed a two-player console-based game with dynamic board updates and win/tie detection logic.
- ❖ Handled user input validation to improve game stability.
- ❖ Focused on algorithmic thinking and structured programming.

Currency Converter App | HTML, CSS, JavaScript, ExchangeRate API

- ❖ Created a real-time currency converter web application using vanilla JavaScript and REST API integration.
- ❖ Fetched real-time rates using the ExchangeRate API to convert between multiple currencies.
- ❖ Improved API handling, DOM manipulation, and asynchronous JavaScript (fetch, promises).

CERTIFICATES

LinkedIn Learning Certificate in C (November 2022), C++ (April 2023).

LinkedIn Learning Certificate in Full Stack Web Development (September 2024)

SOFT SKILLS

- ❖ Remote Team Communication
- ❖ Logical Thinking
- ❖ Continuous Learning
- ❖ Attention to Visual and Functional Details
